CEO Message

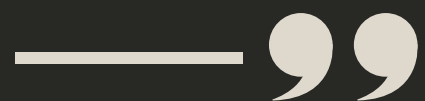

In today's fast-evolving industrial landscape, asset reliability and structural integrity are critical imperatives.

At Shanaya Steels, we are a professionally managed steel trading organization serving diverse industrial sectors nationwide. We supply premium flat and long steel products from India's leading manufacturers.

Our ISO-certified processing standards ensure quality compliance with IS specifications. Reliable logistics support guarantees timely delivery to OEMs and industrial customers.

Strong supply chain capabilities and competitive pricing make us the preferred choice for infrastructure and manufacturing needs.

Executive Summary & Corporate Profile

Shanaya Steels is a trusted name in the metals industry, recognized as a premier stockist and supplier of high-grade steel products. We bridge the gap between world-class steel manufacturers and heavy industries by maintaining a robust supply chain, an expansive inventory, and an unyielding commitment to material integrity.

In the world of heavy engineering, infrastructure, and industrial manufacturing, steel is more than just a structural element—it is the backbone of progress. Shanaya Steels was founded with a singular, clear objective: to redefine how high-growth industries source, verify, and deploy premium-grade steel products.

We entered the market to bridge a critical gap—the need for an agile, technically sophisticated supply partner capable of managing complex, high-stakes material requirements without compromising on lead times or structural integrity. Today, Shanaya Steels stands as a premier stockist, supplier, and exporter, serving as a vital link between the world's most advanced steel mills and critical industrial projects.

Serving sectors ranging from Automobile Components to Industrial Sectors, Electrical Equipment, Home Appliances and Engineering Fabrication, Shanaya Steels delivers precision-engineered solutions tailored to the most demanding industrial specifications.

Core Specialization: Wholesale supply and stocking of Stainless Steel, Carbon Steel, Alloy Steel, and Special Alloys.

VISION, MISSION, AND STRATEGIC CORPORATE VALUES

OUR VISION

To be recognized globally as the most reliable, agile, and quality-driven supply partner in the steel and metal alloys industry, accelerating industrial progress through sustainable sourcing and engineering excellence.

OUR MISSION

To maintain an uninterrupted, high-integrity supply chain that delivers premium-grade steel products to critical infrastructure and industrial projects exactly when and where they are needed.

Core Corporate Values

Material Integrity & Trust

In heavy industry, material failure is not an option. We ensure absolute transparency by providing flawless traceability, authentic Test Certificates (MTC), and uncompromised quality verification for every single ton of steel that leaves our yards.

Operational Agility

Industrial timelines fluctuate. We pride ourselves on rapid response times, flexible stocking strategies, and swift logistical execution to adapt seamlessly to the critical schedules of our clients.

Collaborative Innovation

We embrace the digital transformation of industrial procurement. By upgrading our inventory management systems and tracking technologies, we make the sourcing process seamless, accurate, and highly efficient for procurement engineering teams.

Safety & Sustainability

We believe that building the future shouldn't compromise tomorrow. We enforce strict safety protocols across our stocking yards and actively expand our partnerships with eco-conscious steel manufacturers who prioritize low-carbon production methods.

Comprehensive **Product** Range

Shanaya Steels supplies a versatile spectrum of raw materials tailored to modern engineering standards:

Standard Portfolio

We supply a complete range of steel products for construction, infrastructure, and industrial manufacturing applications.

- **TMT Bars:** High-strength, thermo-mechanically treated bars engineered specifically for earthquake-resistant concrete structures.
- **Structural Steel:** Heavy-duty I-beams, H-beams, channels, and angles designed for robust structural framing.
- **Plates & Sheets:** CRCA, HR Black, HRPO, HRSPO, and galvanized steel sheets in various specifications.
- **Colour Coated:** PPGL and PPGL sheets with premium coating for architectural and industrial use.
- **Profile Sheets:** Boundary wall and rooftop sheets for construction and infrastructure projects.

Technical Specifications & Specialized Product Ranges

At Shanaya Steels Pvt. Ltd., we ensure our flat steel products precisely match the architectural and manufacturing requirements of our clients. Our sheets are classified under rigorous Indian Standards (IS) to guarantee predictable structural performance, forming capabilities, and corrosion resistance.

Quality Grades & Standards

Cold Rolled Close Annealed (CRCA) Sheets

Engineered for applications demanding high surface finish, strict dimensional tolerances, and exceptional formability:

- **IS 513 Specifications:** All CRCA materials comply with the IS 513 standard for cold-rolled carbon steel sheets, ensuring ideal mechanical properties for precision engineering.
- **Deep Drawing (DD) Grade:** Perfectly suited for standard forming and drawing applications, balancing strength with ductility.
- **Extra Deep Drawing (EDD) Grade:** Specialized grade optimized for severe deep-drawing applications, complex stamping, and intricate automotive or appliance geometries without wrinkling or tearing.

www.shanayasteels.com

Technical **Specifications &** **Specialized** Product Ranges

Quality Grades & Standards

Hot Rolled (HR) Sheets

Designed for heavy structural fabrication, load-bearing applications, and robust industrial frameworks:

- IS 1079 Specifications: Our general commercial and structural HR materials adhere strictly to IS 1079 standardizations.
- IS E250 Standard Grade: The reliable benchmark for general structural steel fabrication across India, offering exceptional weldability.
- E350 High Tensile Grade: High-strength structural grade engineered to bear higher dynamic and static structural loads with optimized weight reduction.
- E34 Special Grade: Sourced for specific industrial manufacturing parameters requiring specialized micro-alloyed properties.
- HRPO & HRSPO Processing: Our Hot Rolled Pickled and Oiled (HRPO) and Hot Rolled Skin Passed Pickled and Oiled (HRSPO) products fully comply with IS 1079 standards. These sheets undergo chemical descaling to remove mill scale, leaving a clean, oiled surface ideal for laser cutting, welding, and direct powder coating.

Technical **Specifications &** **Specialized** Product Ranges

GALVANIZED Product Range

Our galvanized steel products offer superior, long-lasting corrosion resistance in harsh atmospheric conditions. We supply GI sheets with a wide range of precisely controlled coating weights (g/m^2 or GSM) and surface aesthetic finishes to match your project environments:

Standard Spangle

Featuring the traditional, highly visible zinc crystal flower pattern, making it ideal for general construction, ventilation ducting, and industrial structural roofing. Available in the following coating weight configurations:

- 80 GSM Coating
- 120 GSM Coating
- 180 GSM Coating
- 275 GSM Coating (Heavy industrial/outdoor protection)

www.shanayasteels.com

Technical **Specifications** & **Specialized** Product Ranges

GALVANIZED Product Range

Zero Spangle / GP Skin Pass

Processed via specialized skin-pass rolling mills to minimize crystal growth, producing a smooth, ultra-flat, matte finish. This uniform surface structure is perfectly optimized for immediate high-end painting, post-fabrication powder coatings, and clean-line architectural panels. Available coating weight configurations:

- 120 GSM Coating
- 180 GSM Coating
- 275 GSM Coating (Maximum longevity for critical outdoor exposure)

SECTORS SERVED & CLIENTELE

The company provides mission-critical steel supplies to key economic sectors and esteemed corporate customers:

Industry Segment	Key Applications Served
» Infrastructure Frameworks	High-rise columns, metro rail frameworks, and heavy bridge components.
» Automobile Components	High-tensile sheets for commercial vehicles and precision auto assemblies.
» Industrial Equipment	Structural factory supports, heavy enclosures, and pressure vessel parts.
» Home Appliances	High-finish CR coils and specialized thin sheets for durable consumer goods.
» Engineering Subcontractors	Reliable bulk raw materials for precision fabrication and tooling components.

PROFESSIONAL PACKAGING STANDARDS

Our comprehensive packaging ensures safe handling, damage-free transportation, and customer satisfaction.

Pallet Packing

Secure stacking on industrial pallets for efficient handling and storage

Metal Strapping

Industrial-grade strapping to prevent shifting during transit

HDP Tarpaulin

High-density polyethylene protective covering against moisture and damage

OUR ESTEEMED CUSTOMERS & INDUSTRIES SERVED

Shanaya Steels Pvt. Ltd. is a vital material supply partner to critical high-growth industries across the pan-India market. Our premium products meet the rigorous performance, surface-finish, and structural specifications demanded by top-tier corporate clients and institutional entities:

Bajaj, Mahindra, Piaggio
Automotive

Schindler Elevators
Elevator & Escalator

Reliance - Adani, Crompton, Idustower.
HPCL, BPCL, IOC
Energy

Reliance Retail, Godrej Interio,
Engineering

Siemens, Schneider, ABB,
Crompton
Electrical
